

# ***TUESDAY, NOVEMBER 27<sup>th</sup>***

## **DO NOW**

- In your notebooks, to be checked, solve this problem...

There are 12 inches in 1 foot.  
These are units of length!

**Know:**

$$12in = 1ft$$

**Asked:** How many inches are in 8 feet?

## **TODAY'S PLAN**

1. Do and review the **DO NOW** and **Qualitative Prompt (QP)**!
  - Today's **QP** = LIST 3 good memories you have from Thanksgiving and then DRAW your favorite holiday food!
2. Open books, WORK on today's **AO!**
3. \***HW** = Finish Quick Lab Intro Posters (1 Scientific + 1 Personal Drawing)!

## **TODAY'S ACADEMIC OBJECTIVE**

Today you will LEARN Mr. Floyd's classroom procedures and INTRODUCE yourself to him!

## DO NOW – Units of Length

- **Know/Given:** There are 12 inches in 1 foot.  
These are units of length!

$$12in = 1ft$$

- **Asked:** How many inches are in 8 feet?

# What is KA<sup>2</sup> format? This is an example of a “1-pointer” on a DO NOW!

- **Know:**

$$12in = 1ft$$
$$\frac{12in}{1ft} = \frac{1ft}{12in}$$

- **Asked:** How many inches are in 8 feet?

- **Answer:**  $8ft * \frac{12in}{1ft} = 96in$

# DO NOW – Never Forget to Listen to Akila!

- To solve these problems, just multiply by the fraction with the units you want on top and “*Let the Units Guide You*”!

– Example:  $84in * \frac{1ft}{12in} = 7ft$

# DO NOW – Translating Our Answer

- **Answer:**

$$8ft * \frac{12in}{1ft} = 96in$$

- **Sci Fact** → *WOAH!* That's actually a bit taller than Shaq!
- \*Remember students, to perform these conversions always make sure to divide by the same unit so that they will cancel out! Isn't SCIENTIFIC MATH awesome!

12th

It's almost impossible to perform these conversions

Dimensional Analysis

Dimensional Analysis

$$\# \text{ units you have} \times \frac{\text{units you want}}{\text{units you have}} = \# \text{ units you want}$$

conversion ratio = 1

## **DO NOW**

- In your notebooks, to be checked, solve this problem...

There are 12 inches in 1 foot.  
These are units of length!

**Know:**

$$12in = 1ft$$

**Asked:** How many inches are in 8 feet?

## **TODAY'S PLAN**

1. Do and review the **DO NOW** and **Qualitative Prompt (QP)**!
  - Today's **QP** = LIST 3 good memories you have from ThanksgivingS and then DRAW your favorite holiday food!
2. Open books, WORK on today's **AO!**
3. \***HW** = Finish Quick Lab Intro Posters (1 Scientific + 1 Personal Drawing)!

## **TODAY'S ACADEMIC OBJECTIVE**

Today you will LEARN Mr. Floyd's classroom procedures and INTRODUCE yourself to him!

# Today's Qualitative Prompt

LIST 3 good memories you have from Thanksgiving and then DRAW your favorite holiday food!

- Students, Thanksgiving is a great holiday, and its important that you take time to enjoy it!

# Today's Qualitative Prompt

LIST 3 good memories you have from Thanksgiving and then DRAW your favorite holiday food!

- I have many good memories from Turkey Day, but my favorite one is of my sister and I playing in the leaves!

# Today's Qualitative Prompt

LIST 3 good memories you have from Thanksgiving and then DRAW your favorite holiday food!

- However, Thanksgiving isn't complete without the food, and if I had to pick a favorite I'd probably pick the TOAST!

# Bell 2 Bell

- We work what in this class?!?!?
  - **BELL 2 BELL**
- Every single precious **SECOND** of academic instructional time is thus utilized in this classroom!
- You students will thus be vocally quizzed **EVERY DAY** until I **DISMISS** you at the end of class (with a positive greeting and a thank-you of course!).

# Bell 2 Bell

- We work **BELL 2 BELL** in Mr. Floyd's class!
- I will thus quiz you about the science we learned today until the very end!
- Let us begin!

# Bell 2 Bell

- “What is the first thing we always do when we enter Mr. Floyd’s?”
- “How many points is the DO NOW worth?”
- “What is the second thing we always do when we enter Mr. Floyd’s?”
- “What are the two categories of grades Mr. Floyd uses?”
- “Who is Mr. Floyd? What kind of teaching system does he use?”
- “How does Mr. Floyd give you opportunities to earn extra credit?”
- “Compare and Contrast Quantitative and Qualitative!”

# Tomorrow's Academic Objective and Plan

- Tomorrow you will DEMONSTRATE how to ENHANCE your senses with a scientific device!
- \*HW = Finish Quick Lab Intro Posters (1 Scientific + 1 Personal Drawing)!

# WEDNESDAY, NOVEMBER 28<sup>th</sup>

## DO NOW

- In your notebooks, to be checked, solve this problem...

There are 36 inches in 1 yard.  
These are units of length!

**Know:**

$$36in = 1yd$$

**Asked:** How many yards are in 180 inches?

## TODAY'S PLAN

1. Do and review the **DO NOW** and **Qualitative Prompt (QP)**!
  - Today's **QP** = WRITE 2 things you know about SCIENCE, 1 QUESTION you have about the world, and one IDEA to make OUR class better!
2. Open books, **WORK** on today's **AO!**
3. \***HW** = CHECK your grades on the Portal!

## TODAY'S ACADEMIC OBJECTIVE

Today you will **BEGIN** your **CONQUEST** of Science by **EXAMINING** what you already know!

## **DO NOW – Units of Length**

There are 36 inches in 1 yard. These are units of length!

**Know/Given:**

$$36in = 1yd$$

**Asked:** How many yards are in 180 inches?

**What is KA<sup>2</sup> format? This is an example of a “1-pointer”  
on a DO NOW!**

- **Know:**

$$\begin{array}{r} 36in = 1yd \\ \frac{36in}{1yd} \quad \frac{1yd}{36in} \end{array}$$

- **Asked:** How many yards are in 180 inches?

- **Answer:**  $180\cancel{in} * \frac{1yd}{36\cancel{in}} = 5yd$

# DO NOW – Never Forget to Listen to Akila!

- To solve these problems, just multiply by the fraction with the units you want on top and “*Let the Units Guide You*”!

– Example:  $84in * \frac{1ft}{12in} = 7ft$

# DO NOW – Translating Our Answer

- **Answer:**

- $$180in * \frac{1yd}{36in} = 5yd$$

- **Sci Fact** → 5 yards is the LENGTH need to score on this special scoring play in Canadian FOOTBALL! In the NFL this play only need 2 yards though!
- \*Remember students, MEASUREMENT is a key skill in science to we must familiarize ourselves with many different units!

**SCIENCE MEASUREMENTS**

How Heavy  
How Long  
How Hot

**Think Like A Scientist!**

- Scientists regularly measure things.
- And to think like a scientist... We need to PRACTICE measuring things to improve our skills!
- Scientists use metric units of measurement and that's what we will use to measure too all year long.

different units!

# WEDNESDAY, NOVEMBER 28<sup>th</sup>

## DO NOW

- In your notebooks, to be checked, solve this problem...

There are 36 inches in 1 yard.  
These are units of length!

**Know:**

$$36in = 1yd$$

**Asked:** How many yards are in 180 inches?

## TODAY'S PLAN

1. Do and review the **DO NOW** and **Qualitative Prompt (QP)**!
  - Today's **QP** = WRITE 2 things you know about SCIENCE, 1 QUESTION you have about the world, and one IDEA to make OUR class better!
2. Open books, **WORK** on today's **AO!**
3. \***HW** = CHECK your grades on the Portal!

## TODAY'S ACADEMIC OBJECTIVE

Today you will **BEGIN** your **CONQUEST** of Science by **EXAMINING** what you already know!

# Today's Qualitative Prompt

WRITE 2 things you know about SCIENCE, 1 QUESTION you have about the world, and one IDEA to make OUR class better!

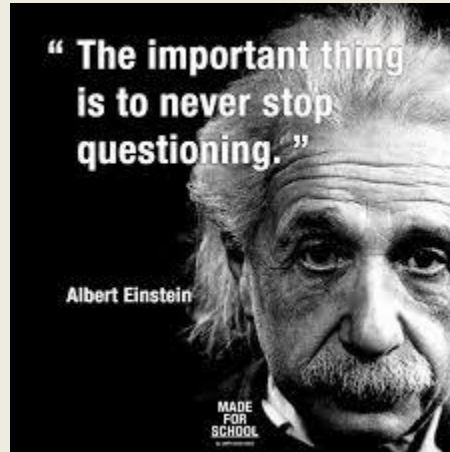

- Students, you've already been studying science for a few years, so I KNOW that you know something about it!

# Today's Qualitative Prompt

WRITE 2 things you know about SCIENCE, 1 QUESTION you have about the world, and one IDEA to make OUR class better!

- You likely have A LOT more questions than answers about our world though, but let me assure you that this is a very GOOD thing!

# Today's Qualitative Prompt

WRITE 2 things you know about SCIENCE, 1 QUESTION you have about the world, and one IDEA to make OUR class better!

- You likely have A LOT more questions than answers about our world though, but let me assure you that this is a very GOOD thing!

## Parking Lot Questions

- Did you ask a rockin' question in class but, due to time constraints, was Mr. Floyd not able to get you an answer?
- DON'T WORRY! Just park your question in the Parking Lot and I PROMISE that I will answer it eventually!

# Today's Qualitative Prompt

WRITE 2 things you know about SCIENCE, 1 QUESTION you have about the world, and one IDEA to make OUR class better!

**WHO'S IN CHARGE?**

- Thus, you likely have a few suggestions for how to improve our class as well, and I assure you that your voice WILL be heard!

## Have It Your Way At “The Idea Club”

- Do you have a rockin' idea for how to improve the academic experience in our classroom?
- DON'T WORRY! Just park your suggestion at “The Idea Club” and I, Mr. Floyd, PROMISE that I will consider it eventually!

# Bell 2 Bell

- We work what in this class?!?!?
  - **BELL 2 BELL**
- Every single precious **SECOND** of academic instructional time is thus utilized in this classroom!
- You students will thus be vocally quizzed **EVERY DAY** until I **DISMISS** you at the end of class (with a positive greeting and a thank-you of course!).

# Bell 2 Bell

- We work **BELL 2 BELL** in Mr. Floyd's class!
- I will thus quiz you about the science we learned today until the very end!
- Let us begin!

# Tomorrow's Academic Objective and Plan

- Tomorrow you will DEMONSTRATE how to ENHANCE your senses with a scientific device!
- \*HW = CHECK your grades on the Portal!

## GRADING SYSTEM

92 - 100	= A	Excellent work
83 - 91	= B	Above average work
74 - 82	= C	Average work
65 - 73	= D	Below average work
0 - 64	= F	Failure

## Grading Policy

- Assessments (Tests, Quizzes, Labs, Etc.) = 40%
- Work (Class Work, Homework, Participation) = 60%
- Extra Credit = ?%

Possible Points

# ***THURSDAY, NOVEMBER 29<sup>th</sup>***

## **DO NOW**

**Know:** Scientists use many instruments to help them study our world.

**Asked:** Which of the following tools would a scientist most likely use to see very small things?

**A:** Barometer

**B:** Microscope

**C:** Telescope

## **TODAY'S PLAN**

1. Do and review the **DO NOW** and **Qualitative Prompt (QP)**!
  - Today's **QP** = LIST and SKETCH as many different scientific tools and devices that you can think of!
2. Open books, **WORK** on today's **AO!**
3. \***HW** = Finish sketching and labeling the Microscope!

## **TODAY'S ACADEMIC OBJECTIVE**

Today you will **DEMONSTRATE** how to **ENHANCE** your senses with a scientific device!

# DO NOW – How Can I See Small?

- **Know/Given:** Scientists use many instruments to help them study our world.
- **Asked:** Which of the following tools would a scientist most likely use to see very small things?

# What is KA<sup>2</sup> format? This is an example of a “1-pointer” on a DO NOW!

- **Know:**
  - Scientists use many instruments to help them study our world.
- **Asked:**
  - Which of the following tools would a scientist most likely use to see very small things?
- **Answer:**
  - **B:** Microscope

# **DO NOW – Translating and Concluding Our Answer!**

- **Answer:**
  - **B:** Microscope
- **Sci Fact** → Barometers are devices for measuring atmospheric **PRESSURE**, while Telescopes help scientists see things that are far away! Microscope it is then, but does anyone know who invented this device?!

## What is a barometer?

- An instrument measuring atmospheric pressure (the weight of the air in the atmosphere)

## • Sci Fact → Barometer

## What its used for?

A barometer is used to help forecast the weather by measuring atmospheric pressure, or air pressure. It measures the change in atmospheric pressure.

## What is a Telescope?

- ◆ Long tube with mirrors & lenses, designed to make distant objects look near.

### History

Hans and Zacharias Janssen of Holland in the 1590's created the "first" compound microscope

Zacharias Janssen  
1588-1631

The "First" Microscope

## Who Invented the Microscope?

- Some scientists have credited **Zacharias Janssen** of the Netherlands for inventing the optical microscope in the early 1600's.

- **Anton van Leeuwenhoek**, a Dutch biologist, has gotten more of the glory since his 18<sup>th</sup> century single-lens microscopes worked better and were more widely used. He was also the first to discover bacteria and protozoans.

From [www.howstuffworks.com](http://www.howstuffworks.com) (History of the Microscope)

Leeuwenhoek

### 2. Early Microscopes

(c) **Robert Hooke**

- an English physicist
- improved on Leeuwenhoek's microscope design
- Hooke wrote the book Micrographia, the first book to describe observations made through a microscope

# ***THURSDAY, NOVEMBER 29<sup>th</sup>***

## **DO NOW**

**Know:** Scientists use many instruments to help them study our world.

**Asked:** Which of the following tools would a scientist most likely use to see very small things?

**A:** Barometer

**B:** Microscope

**C:** Telescope

## **TODAY'S PLAN**

1. Do and review the **DO NOW** and **Qualitative Prompt (QP)**!
  - Today's **QP** = LIST and SKETCH as many different scientific tools and devices that you can think of!
2. Open books, **WORK** on today's **AO!**
3. \***HW** = Finish sketching and labeling the Microscope!

## **TODAY'S ACADEMIC OBJECTIVE**

Today you will **DEMONSTRATE** how to **ENHANCE** your senses with a scientific device!

# Today's Qualitative Prompt

LIST and SKETCH as many different scientific tools and devices that you can think of!

- Students, the human senses and abilities can only take us so far, so to push our limits of perception scientists invented A LOT of different devices!

# Today's Qualitative Prompt

LIST and SKETCH as many different scientific tools and devices that you can think of!

- Some of these devices are quite complicated, such as computers, robots, VR, space stations, and the Hoover Dam!

# Today's Qualitative Prompt

LIST and SKETCH as many different scientific tools and devices that you can think of!

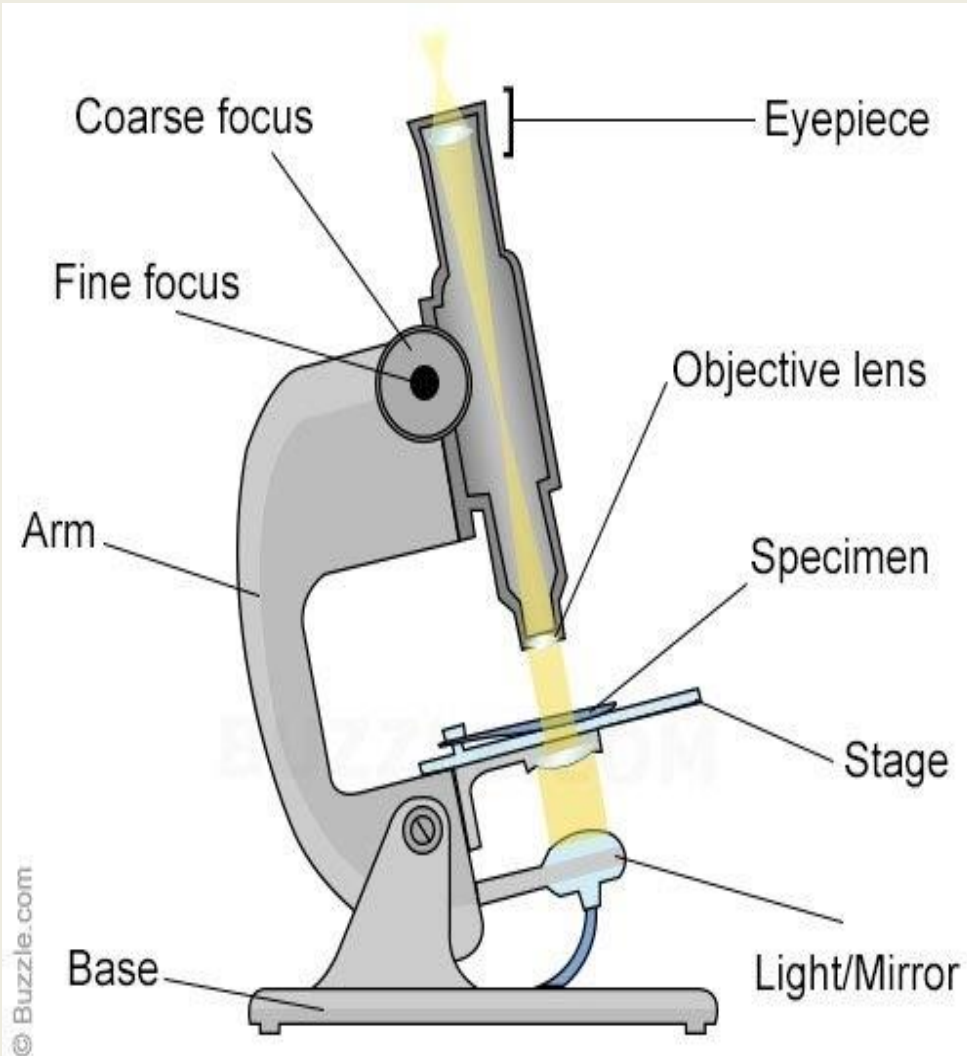

- However, many scientific items are fairly commonplace, such as the Graduated Cylinder, Beaker, Balance, Scale, Test Tube, Pipet, and Microscope!

# Today's Qualitative Prompt

LIST and SKETCH as many different scientific tools and devices that you can think of!

- However, many scientific items are fairly commonplace, such as the Graduated Cylinder, Beaker, Balance, Scale, Test Tube, Pipet, and Microscope!

# Bell 2 Bell

- We work what in this class?!?!?
  - **BELL 2 BELL**
- Every single precious **SECOND** of academic instructional time is thus utilized in this classroom!
- You students will thus be vocally quizzed **EVERY DAY** until I **DISMISS** you at the end of class (with a positive greeting and a thank-you of course!).

# Bell 2 Bell

- We work **BELL 2 BELL** in Mr. Floyd's class!
- I will thus quiz you about the science we learned today until the very end!
- Let us begin!

# Tomorrow's Academic Objective and Plan

- Tomorrow you will USE a microscope in order to LOCATE “missing things” as part of a Science Scavenger Hunt!
- \*HW = Finish sketching and labeling the Microscope!

# *FRIDAY, NOVEMBER 30<sup>th</sup>*

## DO NOW

- In your notebooks, to be checked, solve this problem...

There are 1000 microns in 1 millimeter. These are units of length!

**Know:**

$$1000\mu m = 1mm$$

**Asked:** How many microns are in 84 millimeters?

## TODAY'S PLAN

1. Do and review the **DO NOW** and **Qualitative Prompt (QP)**!
  - Today's **QP** = What are some things that you could only FIND using a microscope? EXPLAIN your ideas!
2. Open books, WORK on today's **AO!**
3. \***HW** = Finish HW Problems and Questions!

## TODAY'S ACADEMIC OBJECTIVE

Today you will USE a microscope in order to LOCATE “missing things” as part of a Science Scavenger Hunt!

# DO NOW – Units of Length

There are 1000 microns in 1 millimeter. These are units of length!

- **Know:**

$$1000\mu m = 1mm$$

- **Asked:** How many microns are in 84 millimeters?

# What is KA<sup>2</sup> format? This is an example of a “1-pointer” on a DO NOW!

- **Know:**

$$\frac{1000\mu m}{1mm} = \frac{1mm}{1000\mu m}$$

- **Asked:** How many microns are in 84 millimeters?

- **Answer:**  $84mm * \frac{1000\mu m}{1mm} = 84,000\mu m$

# DO NOW – Never Forget to Listen to Akila!

- To solve these problems, just multiply by the fraction with the units you want on top and “*Let the Units Guide You*”!

– Example:  $84in * \frac{1ft}{12in} = 7ft$

## DO NOW – Translating Our Answer

- **Answer:**

$$84\cancel{mm} * \frac{1000\mu m}{1\cancel{mm}} = 84,000\mu m$$

- **Sci Fact** → Another word for the “micron” is the “micrometer”, since “micro-” is just a prefix meaning  $10^{-6}$  (one millionth)! Does anyone know what that weird little symbol ( $\mu$ ) is called though?!

### Common Prefixes used with SI Units

Prefix	Symbol	Meaning	Order of Magnitude
<i>giga-</i>	G	1 000 000 000	$10^9$
<i>mega-</i>	M	1 000 000	$10^6$

  - Today's **QP** = What are some things that you could only FIND using a microscope? EXPLAIN your ideas!
2. Open books, WORK on today's **AO!**
3. \***HW** = Finish HW Problems and Questions!

## TODAY'S ACADEMIC OBJECTIVE

Today you will USE a microscope in order to LOCATE “missing things” as part of a Science Scavenger Hunt!

# Today's Qualitative Prompt

What are some things that you could only FIND using a microscope? EXPLAIN your ideas!

- Students, there is “more than meets the eye” to everything around us!

# Today's Qualitative Prompt

What are some things that you could only FIND using a microscope? EXPLAIN your ideas!

- Hidden GEMS are everywhere, since a whole “universe” of microscopic entities are hidden out of plain sight, waiting to be FOUND!

# Today's Qualitative Prompt

What are some things that you could only FIND using a microscope? EXPLAIN your ideas!

- Hidden GEMS are everywhere, since a whole “universe” of microscopic entities are hidden out of plain sight, waiting to be FOUND!

# Today's Qualitative Prompt

What are some things that you could only FIND using a microscope? EXPLAIN your ideas!

- Thus, using a microscope can often end up with YOU wondering if your world is the size of a pin to someone else!

# Bell 2 Bell

- We work what in this class?!?!?
  - **BELL 2 BELL**
- Every single precious **SECOND** of academic instructional time is thus utilized in this classroom!
